

YOUR PARTNER FOR
**MARITIME
LOGISTICS
SOLUTIONS**

LOUIS DREYFUS ARMATEURS (LDA) GROUP OFFERS A WIDE RANGE OF MARITIME LOGISTICS SOLUTIONS.

TRANSPORTING EXTREMELY LARGE CARGOES OR HANDLING GRAINS OR MINERALS IN BULK, FROM ALL CORNERS OF THE WORLD, REQUIRE SPECIALIZED VESSELS AND LOGISTICAL SOLUTIONS. LDA GROUP OFFERS UNIQUE SOLUTIONS TO MEET YOUR SPECIFIC NEEDS.

Offshore floating terminals, Transshipment and Ports management

The extensive experience and know-how of our subsidiary **LD Ports & Logistics** in the design, construction and operation of offshore floating terminals enable us to offer complete bulk cargoes handling solutions for efficient, reliable, and clean offshore loading and unloading of large ocean going vessels.

Our subsidiary **LD Ports & Logistics** develops innovative and tailor-made transshipment solutions for several industries (mining, grain, power industries etc.) including ship management and 24/7 operations.

We implement and operate port facilities, vessels and offshore floating terminals according to strict international QHSE standards. By setting up a global management of our operations in compliance with ISO standards, we can ensure the performance and safety of the various stakeholders involved.

Shallow-water transportation

We offer our know-how and expertise in dry and liquid bulk transportation in shallow waters around the world. Our subsidiaries **LD Ports & Logistics** and **SLM** in Indonesia benefit from a 15-year experience in this field. Thanks to our fleet of dedicated modern units, we can anticipate and meet the needs of our customers.

3 Party Logistics

We are your trusted partner for the management of your tailor made supply chain worldwide. Through our subsidiary **LD Seaplane**, we offer our strong expertise in 3PL Logistics:

- RoRo shipping solutions for specialized cargoes
- Vessel and chartering operations
- Transportation of heavy lift, special and oversize cargoes
- Optimizing current routes with third party cargoes (cars, trucks, trains, etc.)
- Logistic engineering services
- Oversize surface planning management worldwide
- Control tower service
- Measurement of transport & planning performance
- Hot Line Supervision and dedicated teams of experts

Freight Forwarding

We offer our expertise in Freight Forwarding to meet customer's needs. Through our subsidiary **LD Freight Solutions**, we manage end to end customized logistic solutions. Based on our extensive experience of industrial projects, we can:

- Meet your specific needs for heavy lift, special cargoes and oversize multimodal transportation for the most complex shipments;
- Ensure logistics services in strict compliance with QHSE standards;
- Bring the expertise of our highly trained and qualified teams;
- Give you access to our network of partners and experts;
- Provide our control tower service and planning supervision expertise.

Commitment to sustainability

From optimizing energy efficiency through testing alternative fuels (such as HVO) and implementing wind-assisted propulsion, to developing a net-zero-emission ship, we can offer you a more sustainable supply chain.

LDA Group is committed to support the energy transition of the maritime industry.
